## RELEASE NOTES

December 2022

Visualization for C++® DB Link  
Version 7.1

---

## Introduction

These *Release Notes* highlight the changes for the following versions of DB Link:

- [DB Link version 7.0 changes](#)

---

## DB Link version 7.0 changes

- [New Features](#)
- [New Ports](#)
- [Updated Features](#)
- [Bug Fixes](#)
- [Removed Features](#)

---

### New Features

The following new features have been added to DB Link 7.1.

#### DB Link Build System Changed to cmake

DB Link now uses cmake for its build system and samples. The `find_package(dblink) cmake` command can be used for importing dblink targets into a cmake project.

#### Third-Party Software Updates

DB Link's use of the ICU library was updated to the latest versions as part of the DB Link 7.1 release.

#### Platform Changes

Support for Oracle 19c was added. See the Views 7.1 Platform Guide for complete details on the supported platforms.

---

### New Ports

No new ports have been added for this release.

---

### Updated Features

- [API Updates](#)
- [Port Updates](#)
- [Other Updates](#)

#### API Updates

There are no API updates in this release.

#### Port Updates

No ports were updated in this release.

### **Other Updates**

No other updates were performed in this release.

---

### **Bug Fixes**

No bug fixes have been made for this release.

---

### **Removed Features**

The Inform30 Database is no longer supported by DB Link.
