

Rogue Wave Software

Visualization for Java product family

Version 2017.2

System Requirements

This guide gets you started with a typical installation for Rogue Wave Visualization products.

Supported Platforms

The Rogue Wave Visualization for Java product family is supported on the following platforms:

- Linux
- Windows

On each platform, the product compatibility with the main browsers have been certified:

- Firefox 82.0
- Chrome 86.0
- Microsoft Edge
- Safari 8

The products have been compiled targeting Java 7 and have been certified against all Java releases, including Java 15. OpenJDK and Oracle JDK are supported.

The installation includes an Apache Tomcat 8.5 server.

Windows

All Windows versions from 8 upwards are supported.

The platform chipset of choice is 64-bits.

The minimum recommended RAM amount is 4GB but 8GB is preferred.

Upon installation, the amount of disk space depends on the product. For example, installing JViews Enterprise requires 2.2GB. An equivalent amount of temporary disk space is required during installation.

Linux

Red Hat versions 6 and newer are the Linux platforms of choice.

The chipset of choice is 64-bits.

The minimum recommended RAM amount is 4GB but 8GB is preferred.

Upon installation, the amount of disk space depends on the product. For example, installing JViews Enterprise requires 2.2GB. An equivalent amount of temporary disk space is required during installation.
